Specifications:

MULTIFUNCTION CENTER BAR WISER 26/12

Manufacturer SCHNELL, SPA – ITALIA

With the “Bar Wiser Multifunction Centres”, Schnell has created a new family of machines which, combining the cutting, stirrup bending and profiling functions, are able to produce a finished product starting from a bar.

Therefore provide a map to help you make the most important choices to create a system most suited to your needs.

Is the only machinery in the market with automatic feeder, automatic unloader and rebar bending under EHE regulation.
