1. BACKGROUND

Our company acquired a complete terrazzo paving production line from the disappeared company "Pavimentos de Tudela". Currently, this line is in our workshop in Tomelloso (Ciudad Real), in which it has been reconditioned, cleaned and newly painted.

When the installation was unmounted, it was in a perfect condition and working. At the present, it is unmounted and ready to load with accessories as detailed below.

Condition of the press and accessories prior to unmounting

2. RECONDITIONING OF A OCEM 1440 PRESS

Example of a reconditioned and mounted press

Current reconditioning status
